

Welcome to the final meeting in the ACCEPTED project

Assessment of changing conditions, environmental policies, time-activities, exposure and disease.

The aim of this Final Meeting is to summarize state of knowledge and assessments of how future exposure situations in cities are estimated to have an impact on health. Key note speakers and members of the Accepted Project will present and discuss recent reports and new results.

23rd of October 2015
Belgian Science Policy,
Avenue Louise 231, Brussels

Preliminary program

- 08.30 Registration
- 09.00 Welcome. Frank Monteny, General Director Research and Space, BELSPO
- 09.10 Welcome ERA-ENVHEALTH. Prof. Bertil Forsberg (project coordinator)
- 09.30 Air pollution exposure in European cities
 Effects of traffic policy: Prof. Christer Johansson, Stockholm University
 Effects of buildings and activities: Dr. Myrto Valari/Konstantinos Markakis
 Effects of emission and climate change: Dr. Camilla Andersson, SMHI
- 10.15 Coffee break/poster viewing
- 10.45 Health effects of air pollution – an update: Prof. Bert Brunekreef, Utrecht University, NL
- 11.30 Altered neonatal cord blood oxylipidome in association with exposure to particulate matter in the early life: Dries S. Martens, Hasselt University
- 12.00 Lunch break/poster viewing
- 13.00 Health impacts of changes in air pollution exposure (HIA case studies)
- 13.30 Assessing health impact of warmer cities: Prof. Kristie Ebi, University of Washington, Seattle, USA
- 14.00 Health impacts of warmer summers (HIA Case studies)
- 14.30 Coffee break/poster viewing
- 15.00 Air Quality Policy: Dr. Titus Kyrklund, Swedish EPA
- 15.30 Final discussion
- 16.00 Closure of meeting
