

Are you a woman who works in science and who is passionate about your research? Are you eager to talk to the general public about your work in a fun, informal setting? If so, then **Soapbox Science** needs YOU! We are looking for scientists in all areas of STEMM (Science, Technology, Engineering, Mathematics and Medicine), from PhD students to Professors, and from entry-level researchers to entrepreneurs, to take part in this grassroots science outreach project.

**Brussels** will host this event on Saturday **26/06/2021**. The call for speakers is now open! Please apply before February 28, 2021 at <http://soapboxscience.org/apply-to-speak-at-soapbox-science-2021/>.

Help us to spread the word and send this invitation to women around you that may want to participate.

Interested? Please, take a look at the videos of the virtual Soapbox Science Brussels 2020 edition: <https://bit.ly/SoapboxBrusselsYouTube>

### **What is Soapbox Science?**

Soapbox Science is a novel public outreach platform for promoting women scientists and the science they do. Our events around the world transform public areas into an arena for public learning and scientific debate. With Soapbox Science, we want to make sure that everyone has the opportunity to enjoy, learn from, heckle, question, probe, interact with and be inspired by some of our leading scientists. No middleman, no PowerPoint slide, no amphitheatre – just remarkable women in science who are there to amaze with their latest discoveries, and to answer the science questions the public have been burning to ask.

### **Why should you apply to be a Soapbox Science speaker?**

- Help us improve the visibility of women in science
- Make valuable connections with other scientists
- Engage with people who might not otherwise encounter science
- Publicise your work through blogs and other media opportunities
- Training at our bespoke Soapbox Science workshops
