Who are we?

Main axes

We are active!

photo exhibition together with IPF at the
Museum of Natural Sciences in Bruxelles

school visits

book publication with stories
written by children from every
corner of Belgium inspired
from pictures of Antarctica,
founded by BelSPO

We are active!

Belgian Polar Research Groups

Polar research has been very active in Belgium! For the first time, APECS Belgium is excited to present all current active Belgian polar research groups in a map! Click on the snowflake to discover:

- head of research group
- institute affiliated
- address
- research domain
- website

And don't hesitate to **contact** us, if any of the information should be updated.

map with laboratories working on polar-related projects

poster presentation to the NL Polar Symposium

APECS NL/BE workshop 2017

movie screening open to everyone

JOB ALERT: Doctoral student (m/f/x) to investigate Benthic iron cycling in fjord environments

June 4, 2022 by modhondt, posted in jobs

Context The Royal Belgian Institute of Natural Sciences is a world-class research institute with more than 250 scientists and scientific collaborators covering a wide range of disciplines from biology to geology, oceanography to taxonomy, and palaeontology to ecology. Research at RBINS is used to support national and international decision-makers, which enables our researchers to have a direct ... [Continue reading](#)

advertising open positions in Belgium

APECS: an opportunity for early career scientists

- Scientific article publications
- IPCC revisions
- EPB plenary meetings rapporteurs
- Communication skills (oral presentations, blog post writing)
- Community-building → support
- Education skills (raise awareness about climate change and other sensitive topics)
- Networking (nationally & internationally)

Thank you!
